National Network of Libraries of Medicine

The mission of the National Network of Libraries of Medicine (NNLM) is to advance the progress of medicine and improve the public health by providing all U.S. health professionals with equal access to biomedical information and improving the public's access to information to enable them to make informed decisions about their health. The Program is coordinated by the National Library of Medicine and carried out through a nationwide network of health science libraries and information centers.

Discovery has been developed to foster learning and collaboration in data science.

Visit NNLM RD3

connecting and defining concepts, services, and tools relevant to librarians working in data-driven discovery. A definition, relevant literature, and web resources accompany each term along with links to related terms.

Check it out!

Introducing the NEO Dashboard

The University of Washington's NNLM Evaluation Office (NEO) will be building and launching a consolidated data visualization dashboard and ticketing system to assist program assessment, outreach, and data-driven decision making for the NNLM network.
