Email: nto@utah.edu

Major Milestones

- Excellence in Teaching and Learning Workshops with NNLM colleagues
- Established NNLM-wide Education Advisory Team (EAT)
- Quality design guidelines for webinars and online classes
- Co-developed 2 new classes for CHIS credit to support public librarians
- All of Us Research Program training materials
- Co-created and delivered How PubMed Works series
- RDM 102
- CHIS Accelerated Plan (COVID-19 Response)

OUR VISION

NNLM participants have an excellent experience, and gain useable knowledge of NLM products & services, through training opportunities grounded in cultural humility and evidence-based research and practice.

Y4 Statistics

- 58% increase in NNLM class registrations since April 2019
- 236 classes offered for 501.5 credits
- 31,428 registrants (average of 133 registrants per class)
- 89% reported learning a new skill from training
- 91% said the training met or exceeded their expectations

NTO Projects

- Support NNLM staff through internal staff training and onboarding.
- Coordinate course development and scheduling of Y5 national classes and webinars.
- Ensure quality of the NNLM training program through guidelines, workflows, expert-level accessibility guidance, and communication

One NNLM

2020 has writ large the disparities in health and race in the United States. NTO works to ensure equal access to the highest level of health information regardless of an individual or communities' demographics. We are here to support you. We are One NNLM.

On the horizon

Topical Classes

Health disparities, data science, citizen science, digital literacy, nursing, PubMed, and more!

National webinars

Data management, NLM resources, public health, public libraries, health science libraries, topical and emerging trends
