### NLM Web Resources

The home page of the U.S.

National Library of Medicine, [www.nlm.nih.gov](http://www.nlm.nih.gov), connects you to a vast array of information, available free of charge, 24 hours a day, 7 days a week. Here is a sampling of NLM's online resources:

#### MEDLINE® /PubMed®

Go to [www.pubmed.gov](http://www.pubmed.gov) and you will find millions of references to articles in over 5,500 peer-reviewed health science journals from around the world. PubMed also includes a growing collection of books on biomedicine.

#### MedlinePlus®

NLM's site for reliable, up-to-date and easy-to-read consumer health information. MedlinePlus ([medlineplus.gov](http://medlineplus.gov)) features news articles, drug information, a medical dictionary and encyclopedia, interactive tutorials, surgery videos, and detailed information on hundreds of health and wellness topics. MedlinePlus is also available en español ([medlineplus.gov/spanish/](http://medlineplus.gov/spanish/)).

#### PubMed Central®

PubMed Central ([www.pubmedcentral.nih.gov](http://www.pubmedcentral.nih.gov)) is a free digital archive of full-text articles from important life sciences journals. Growing exponentially each month, PMC has become a true digital counterpart to NLM's extensive collection of print journals.

## Clinical Trials

Provides easy access to information on thousands of clinical research studies in the public and private sectors. Available at [clinicaltrials.gov](http://clinicaltrials.gov).

## NIH Senior Health

Based on the latest research on aging and computer use, this unique resource ([nihseniorhealth.gov](http://nihseniorhealth.gov)) is packed with helpful information for older adults.

## Genbank®

The world's most complete collection of public DNA and protein sequences is at [www.ncbi.nlm.nih.gov/Genbank/](http://www.ncbi.nlm.nih.gov/Genbank/). This widely-used resource paves the way for exciting breakthroughs for science and medicine in the 21st century.

## LocatorPlus®

NLM's online catalog, providing information about the Library's holdings of books, journal titles, and audiovisuals. Available at [locatorplus.gov](http://locatorplus.gov).

## Toxnet®

This extensive collection of bibliographic and full-text information, covering the effects of drugs and other chemicals on humans, is at [www.toxnet.nlm.nih.gov](http://www.toxnet.nlm.nih.gov).

## Genetics Home Reference

From the cellular level up, this site provides information on genetic conditions in straightforward, easy-to-understand language. Available at [www.ghr.nlm.nih.gov](http://www.ghr.nlm.nih.gov).

## UMLS®

The Unified Medical Language System®, <http://www.nlm.nih.gov/research/umls/>, integrates and distributes key terminology, classification and coding standards, and associated resources to promote creation of more effective and interoperable biomedical information systems and services, including electronic health records.
