NLM[®], the National Library of

Medicine[®], provides several free Web resources, programs, and important initiatives of interest to the public health workforce.

Partners in Information Access for the Public Health Workforce

is a collaboration of U.S. government agencies, public health organizations and health sciences libraries which provides timely, convenient access to selected public health resources on the Internet. Resources on Health Promotion and Health Education, Literature and Guidelines, Health Data Tools and Statistics, Grants and Funding, Education and Training, Legislation and Policy, Conferences and Meetings, Finding People, Discussion and E-mail Lists, and Jobs and Careers are included. <http://PHPartners.org>

PubMed Access to the research

and Public Health literature in Medline[®], an index of over 17 million references. <http://pubmed.gov>

MedlinePlus[®] Extensive

patient education information, in both English and Spanish. Hundreds of health topics include drug information, interactive tutorials, encyclopedia, news, information about support groups, clinical trials, directories, and more. <http://medlineplus.gov>

AIDSinfo Federally approved

treatment guidelines for HIV infection and AIDS-related illnesses. HIV/AIDS clinical trials, vaccines, and drug information in English and Spanish. <http://aidsinfo.nih.gov> or call 1-800-HIV-0440

Environmental Health and Toxicology

Comprehensive environmental health and toxicology resources. tox.nlm.nih.gov

Household Products Health and safety

information for 7,000 brands, including personal care, automotive, garden, and cleaning products. hpd.nlm.nih.gov

TOXMAP Environmental health

maps of certain toxic chemicals in the air, water, and ground. [toxmap.nlm.nih](http://toxmap.nlm.nih.gov)

Tox Town Animated guide explor-

ing key topics in toxicology, environmental and occupational health. toxtown.nlm.nih.gov

NCBI, the National Center for

Biotechnology Information, provides tutorials, databases, and computational resources on how interactions among genes and environmental and lifestyle factors can lead to disease. www.ncbi.nlm.nih.gov/

NN/LM[®], the National Network of

Libraries of Medicine[®], assists public health workers with training on these NLM databases and other Web resources, providing speakers for educational programs or meetings, obtaining copies of journal articles, and identifying local health library resources. <http://nnlm.gov> or call 1-800-338-7657
