

pubmed.gov/

Search over 30 million scientific journal citations with additional resource links to other NLM databases. MEDLINE is the indexed subset of PubMed and includes substance names and pharmacological actions of drugs.

# Clinical Trials.gov

clinicaltrials.gov/

This registry of over 334,000 clinical trials conducted world-wide includes the trial's purpose, participant eligibility, and location. For recently completed trials, both study results and links to PubMed are available.

# **Pub**©hem

pubchem.ncbi.nlm.nih.gov/

This biological activities and chemical structures database includes detailed chemical information for over 103 million compounds. **Literature** records identify PubMed citations focusing on aspects of the substance.

Funded in whole or in part with Federal funds from the National Library of Medicine (NLM), National Institutes of Health (NIH), under cooperative agreement No. UG4LM012340 with the University of Maryland, Baltimore. This resource is freely available at:

The U.S. National Library of Medicine (NLM) provides a variety of resources to locate information on drugs and herbal supplements.

Search over 30 million scientific journal citations by substance name and pharmacologic actions of drugs.

Find active clinical trials testing specific drugs.

Link substance names of different drug management software programs with a normalized vocabulary.

Find descriptions, usage indications, and patient counseling materials and manufacturer labels for over 114,000 different prescription drugs.

### DAILYMED

dailymed.nlm.nih.gov/dailymed/

Over 114,000 federally approved prescription drug labels submitted by manufacturers including descriptions, usage, warnings, and patient counseling information.

## LactMed

ncbi.nlm.nih.gov/books/NBK501922

The Drugs and Lactation Database (LactMed) contains nearly 1,000 drugs, supplements and herbs to which breastfeeding mothers may be exposed. Includes information on levels of substances in breast milk and infant blood, possible effects on nursing infants, and potential alternate drugs.

LiverTox contains clinical research information on drug-induced liver injury with case studies, drug records and product information.

ncbi.nlm.nih.gov/books/NBK547852/

druginfo.nlm.nih.gov/drugportal/

Information on over 82,000 drugs from their entry in Clinical Trials through U.S. FDA approval and into the marketplace.

The portal also links out to additional resources from the following agencies:

- · National Institutes of Health
- Food and Drug Administration
- Drug Enforcement Administration
- Centers for Disease Control and Prevention
- National Guideline Clearinghouse
- U.S. Government Search Engine

medlineplus.gov

Patient-oriented information for over 1000 health topics including drugs, herbs, and supplements.

#### **RxNorm**

nlm.nih.gov/research/umls/rxnorm/index.html

RxNorm provides normalized names for clinical drugs and links its names to drug vocabularies commonly used in pharmacy management and drug interaction software.

### **Dietary Supplement Label Database**

https://dsld.od.nih.gov/dsld/index.jsp

This new label database includes information from dietary supplement labels for on and off-market drugs. Labels include product information supplement facts and ingredients.

clinicalinfo.hiv.gov

A database of federally-approved information on HIV/AIDS clinical research, treatment, and prevention. Search the drug database for FDA-approved and investigated drugs; find preventative and therapeutic vaccines; access updated treatment guidelines.
